TRADE WITH DANA | 2ND CHANCE PROGRAM

YOUR PAST DOES NOT DEFINE YOUR FUTURE.

Private, one-on-one education in futures day trading

WHAT IS DAY TRADING?

Day trading involves buying and selling financial instruments within the same trading day. Learn chart reading, market movement, entry and exit planning, and risk management.

WHY CONSIDER A 2ND CHANCE?

A legal setback can interrupt a professional career. Trading education offers a chance to explore a self-directed skill that does not require a traditional professional license. Trading carries substantial financial risk.

WHO IS THIS PROGRAM FOR?

For professionals preparing for release or recently released, with strong reasoning skills and a willingness to learn. Prior careers may include law, nursing, medicine, pharmacy, business, or other degree-based fields. No trading experience required.

HOW DOES IT WORK?

Begin with a private consultation. One-on-one training covers platform setup, chart reading, guided practice, and disciplined risk management. Students practice before considering live trading.
